The Cymru Football app

The Cymru Football app takes the match data entered into the mComet app by clubs, referees and competition managers and makes it available to members of the public, giving them the opportunity to follow all levels of Welsh football live.

The app is free to download from the Apple and Google Play stores and can be used on a smartphone or tablet

It includes live match details, including goal scorers, yellow and red cards and substitutions for every match recorded on COMET, as well as player and team statistics and league tables.

It will also allow you to select your favourite player, team, match or competition and receive a notification whenever a goal, substitution or card is recorded on COMET.
